# What we do

At agent we specialise in manufacturing quality corded and wireless headsets that focus on producing clear, rich sound regardless of how noisy the environment.

agent is one of the fastest growing brands in the industry because our product range is designed to offer the flexibility and reliability needed to increase productivity. Whether in a small office or a busy call centre agent has the right product to suit while giving you an outstanding return on your investment.

We are so confident of our products' performance that we offer a minimum of 2 years no quibble warranty on all our headsets, with the option of up to 3 or 4 year warranties and a 10 year warranty as standard on business phones.

With headsets available for you to trial, you can fully test our products and discover all the benefits of agent for yourself.

# Corded Headset Accessories

## The agent headset/handset switch

Many telephones have a dedicated port for headset use, but where there isn't one and amplification is not required, the agent Headset/Handset Switch provides the perfect solution.

## The agent buddy training switch

Designed to allow side-by-side training sessions. There are two separate mute buttons for either the trainer or the trainee to simply join or leave the conversation. The agent buddy switch will work with most telephones and is compatible with all major brands of QD headset.

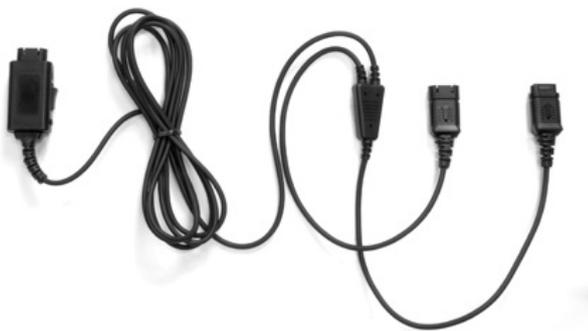

## The agent amplifier

Used in conjunction with any headset to provide greater volume and control which is particularly useful within noisy environments. Features of this product include a mute function, Carbon setting, headset stand and standard 2 year warranty.

## The agent training cable

Designed for side-by-side training sessions when both users have corded headsets with the same variant of QD. Two headsets plug into the top of the cable while a single bottom cable connects the training cable to your phone. Includes an in-line mute switch to give you control of which user can speak on the call.

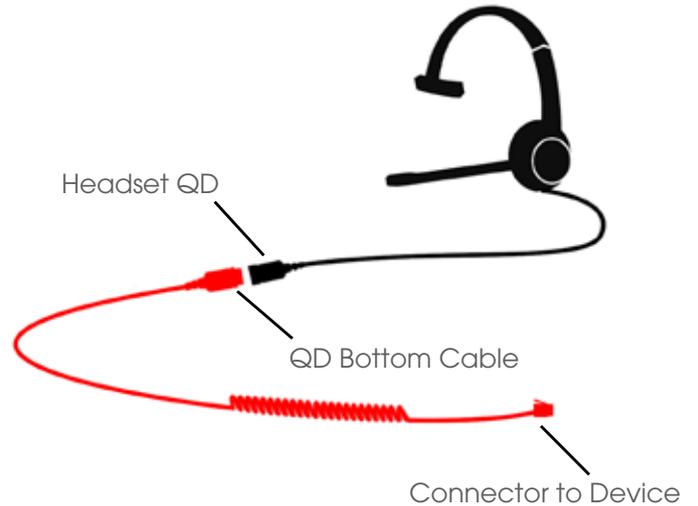

## agent consumables

To keep your headsets in excellent condition we provide a range of replacement consumables such as spare voice tubes, spare headbands and spare ear cushions. This ensures you continue to get the best out of your headset. To maintain a good standard of hygiene we recommend that consumables are replaced around every 6 months.

# agent Bottom Cables

To ensure your agent corded headset works with your specific phone model, you will need the correct bottom cable and Quick Disconnect. Over the next two pages you will find the variant QDs explained and a list of the different cable options with a guide to compatibility for each.

## QD variants

### The agent QD

agent corded headsets are available with the agent Quick Disconnect: this four pin connector provides a secure fitting between the headset itself and the bottom cable.

This variant is available for all agent QD headset models.

Headset end

Bottom cable end

### The PLX QD

agent offer our range of headsets with a Quick Disconnect which is specifically compatible with Plantronics cables. This PLX QD allows you to upgrade existing Plantronics units with an agent headset without the need to replace existing cables.

This variant is available for all agent QD headset models.

Headset end

Bottom cable end

# Wireless Accessories

## agent wireless accessories

agent provide you with two accessory options to optimise your telephony experience and utilise all the advantages of wireless technology

### The agent handset lifter

Works in conjunction with the agent wireless W860 and W880. The lifter fits directly onto your telephone, allowing you to answer calls with the touch of a button whether you're sat at your desk or elsewhere in the office.

### The agent EHS 550 adapter

Works in conjunction with the W860 and W880 wireless DECT headsets. It offers remote operation of your deskphone, eliminating the need for a mechanical handset lifter. This offers you the freedom to move around the office but still be able to answer calls when you are away from your desk.

## TRaC Certificate of testing

Our corded headsets have been tested by TRaC (Testing Regulatory and Compliance) in accordance with UKAS (The United Kingdom Accreditation Service) requirements. These tests ensure that our corded headsets comply with all essential regulatory requirements, and demonstrate compliance with relevant EU directives, international standards and approval requirements.
